REPORT OF AUDIT

July 19, 1947

Board of Selectmen
Industry
Maine

Gentlemen:

In accordance with Chapter 16, Section 3, Revised Statutes of 1944 and at your request, the records of the Town of Industry have been audited by Auditor R. M. Stetson for the period February 2, 1946 to February 1, 1947 inclusive.

The examination was made in accordance with generally accepted auditing standards applicable in the circumstances and included all procedures which were considered necessary. Insofar as could be ascertained within the scope of this examination, the financial transactions of the town appear to have been appropriately handled.

Exhibits and schedules incorporated in this report impartially present the financial position of the town and the result of its operations for the period designated.

Comments and other data incorporated in this report may prove of interest to you. All of which is respectfully submitted.

Very truly yours,

RICHARD M. STETSON,

R.M.S.: as

Auditor.

COMMENTS

Re: Audit of Accounts — Town of Industry
February 2, 1946 to February 1, 1947

CASH

The cash balance was reconciled with the bank statement. At the close of the year the Treasurer had cash on hand amounting to \$12.50, which amount was deposited March 1, 1947.

Cash receipts were examined and all had been correctly recorded. It was ascertained that all payments had been made by check and had been authorized by warrants properly signed by the majority of the Selectmen.

TAXES RECEIVABLE

The 1946 tax commitment book was added and found to agree with the Valuation Book. Both exceeded the Warrant of Commitment to the Tax Collector by \$0.44, which amount was transferred to unappropriated surplus.

During the collection of the commitment, no abatements were allowed and at the close of the year, outstanding taxes amounted to \$1,115.32. There were no uncollected prior years' taxes at February 1, 1947.

TAX LIENS

Tax liens, totaling \$213.90, were transferred from taxes receivable during the year. Costs of these liens was charged to general government, same account being reimbursed upon redemption of liens. A detail of unredeemed liens may be found on Schedule A-5.

TAX DEEDS

There was no change in tax deeds during the year under examination. At February 1, 1947, there was outstanding one deed amounting to \$7.97.

SURPLUS

The unappropriated surplus was increased by \$2,865.94 during the year. A complete analysis of the change in unappropriated surplus may be found on Exhibit E.

TRUST FUNDS

The pass books representing the savings accounts of the trust funds were examined. None of the interest received had been expended during the year and at February 1, 1947 the unexpended income amounted to \$139.85.

GENERAL

The copies of the excise tax receipts were added and it was determined that all receipts from this source had been deposited with the Treasurer.

At the close of the books there was an accounts receivable amounting to \$483.90. This amount consisted of two State pauper accounts and is being verified.

It was found that during the year, the 1945 tax collector had paid in \$6.82 in excess of outstanding 1945 taxes. This amount was set up as an accounts payable.

A test check was made of payrolls and vouchers, and all so examined appeared to be proper charges and were correctly recorded.

The Treasurer and Tax Collector furnished corporate surety bonds for \$3,000 and \$2,000 respectively.

Report of Superintendent of Schools

To the Superintending School Committee:

Herewith is submitted my annual report of the schools of Industry for the fiscal year 1947-48.

Up to the present time Industry has been very fortunate in its ability to secure competent teachers; however, with Mrs. Obeton's illness, which is deeply regretted, the town is confronted with a serious problem in teacher selection. The State Department of Education is becoming more and more insistent in its demand for professionally trained teachers, and any town which employs improperly or uncertified teachers, for even substitute work, stands to lose considerable in state subsidy granted on the basis of teaching positions. If we hope to attract teachers to our rural schools, we must expect to pay higher salaries and every community must be ready to afford comfortable living accommodations whenever conditions demand it.

Enrollment in the Industry schools for the current year has been reported by the teachers as follows:

Grade	P.P.	1	2	3	4	5	6	7	8	Total
Allen's Mills	2	5	4	4	0	5	4	1	1	26
West Mills	5	1	3	3	2	2	3	1	4	24
	—	—	—	—	—	—	—	—	—	—
Total	7	6	7	7	2	7	7	2	6	50

In addition to the above, seven pupils are attending Farmington High School, one Madison High School and one New Sharon High School.

It is quite probable that in the near future every community will be expected to have available for school use a satisfactory supply of water which will meet State health standards for public drinking purposes. Already we have been required to submit for analysis samples of water used in the two schools, and the sample from West Mills did not meet required standards. Although that submitted from Allen's Mills met necessary health standards, it was recommended that when lake water is used for public drinking purposes opportunity should be afforded for chlorination when necessary.

The following budget estimates have been approved and are recommended for the coming year:

PROSPECTIVE COSTS

STATEMENT OF AUDIT

April 15, 1948

Board of Selectmen
Industry, Maine

Gentlemen:

In accordance with Chapter 80, Section 116, Revised Statutes of 1944, and at your request, the records of the Town of Industry have been audited by Auditor R. M. Stetson for the period February 1, 1947 to February 1, 1948 inclusive.

The examination was made in accordance with generally accepted auditing standards applicable in the circumstances and included all procedures which were considered necessary. Insofar as could be ascertained within the scope of the examination, the financial transactions of the town appear to have been appropriately handled, with exceptions as noted in the accompanying comments.

Exhibits and schedules incorporated in this report impartially present the financial position of the town and the result of its operations for the period designated.

Comments and other data in this report may prove of interest to you. All of which is respectfully submitted.

Very truly yours,

R. M. STETSON,

Auditor.

COMMENTS

Re: Audit of Accounts — Town of Industry
February 1, 1947 to February 1, 1948

CASH

All receipts issued were checked in detail and as far as could be determined from this examination, all monies had been accounted for.

The checkbook balance was reconciled with the bank statement, with the exception of a 30c overage in the bank.

All disbursements were made by check and were supported by warrants.

ACCOUNTS RECEIVABLE

This is made up of snow removal reimbursements and pauper account reimbursements, due from the State of Maine.

TAXES RECEIVABLE

The 1947 commitment book was added and found to agree with the valuation book; both agreed with the warrant of commitment. There was an error of \$2.69 in the computation of the assessment, see Exhibit C.

Collections were checked and taxes remaining unpaid were listed, see Schedule A-8.

TAX LIENS

All transactions in this account were checked and the liens remaining unredeemed were listed.

TAX DEEDS

There were no transactions and this account remained the same.

ACCOUNTS PAYABLE

Composed of several small items; for detail see Schedule A-3.

SURPLUS

There was a net increase in this account of \$552.00 during the fiscal year audited. See Exhibit E for details.

TRUST FUNDS

The trust fund investments were examined and listed. All income from these funds was expended in accordance with the terms of the trusts. Unexpended income of \$44.27 on Cemetery Trust Funds is carried in the cash of the general fund of the town.

GENERAL

Excise taxes were checked and agreed with the amounts remitted to the Treasurer. There was a \$2.00 overpayment on the 1947 receipts which has been set up as an Account Payable.

RECOMMENDATIONS

It is recommended,

THAT, care be exercised to avoid duplication of charges to the road accounts and the town truck & tractor accounts.

Report of Superintendent of Schools

To the Superintending School Committee:

The annual report of the Schools of Industry for the fiscal year 1948-49 is herewith submitted.

Again this year, the most serious situation confronting the schools is the extreme shortage of trained elementary teachers thruout the state and nation. Towns such as Industry are indeed fortunate when local personnel can be secured for this service; for it is doubtful if many one-room schools can be kept open when the supply of local talent is exhausted.

I feel obligated again to call to the attention of the citizens of Industry the urgent need of providing for the schools an adequate supply of drinking water which will meet state health standards. It has been necessary this year to submit two different samples of water from the West Mills School and it is doubtful whether either sample will meet required standards.

School enrollment in Industry for the current year has been reported by the teachers as follows:

School	Jr.	P.	Grade								Total
			1	2	3	4	5	6	7	8	
Allens Mills		8	2	3	5	3	0	6	2	1	30
West Mills		3	3	2	3	2	2	2	3	1	21
		—	—	—	—	—	—	—	—	—	—
		11	5	5	8	5	2	8	5	2	51
Farmington High School											7
Madison High School											1
											—
Grand Total											59

The following budget estimates have been prepared for the coming year. Although these figures are somewhat larger than last year, it would seem that any reduction in the amounts asked for, will only result in the curtailing of essential school services or in overdrafts in the school accounts.
